Summary of the Event	<p>IEEE GRIET GRSS Student Chapter hosted an online quiz named “Quiztronics II” on 14th June 2021 from 4:00 PM to 5:00 PM to provide students with an opportunity to test the grip a student possesses and to improvise their general knowledge in the field of electronics. The registrations of “Quiztronics II” were opened from 11th June 2021 and around 55 participants enrolled themselves.</p> <p>It consisted of two rounds that covered the topics such as oscillators, transistors, diodes, semiconductors, etc. The preliminary round consisted of 10 Multiple choice questions, and the second round consisted of a crossword puzzle. There was a time limit of 20 minutes per round to attempt the quiz. All the questions asked were designed to brush up on the participants’ prerequisite learnings of electronics.</p> <p>Students from various departments attempted the quiz to understand their command over the given subject. The contestants enthusiastically participated and showcased their brilliance by rapidly answering the questions asked.</p> <p>The winners were given merit certificates for their outstanding insight. The quiz enabled the students to identify what they know and what they don’t. We hope that the participants now have a better idea of how well they can grasp the topics that are being taught, hopefully motivating them to study more.</p>
